

## NOWLAND COURT ROAD REPAIR PROJECT 2021

### IMPORTANT INFORMATION FOR RESIDENTS

1. Residents need to turn off their irrigation system and flag components that are near the street. Unfortunately, even when well-marked, there may be damage. The contractor will be responsible for repairs.

2. School bus routes may be affected, as buses may not be able to drive through the court. Please make arrangements with bus driver ahead of time for the duration of the construction project.

3. Trash, recycling, and compost pickup may be affected.

4. Mail delivery may be affected. Mail will NOT BE DELIVERED if the mailbox is not reachable. When mail is undeliverable it will be returned to the Post Office where residents will need to pick it up.

5. Deliveries from other services may be affected.

6. Parking will be difficult during construction.

7. When the curb & gutter at the end of a driveway is being replaced, it will be impossible for residents to access their driveways between the time the curb & gutter is removed until about 1 week after the new curb & gutter is poured. The township engineers will try to get the work done on one side of the street at a time.
